

RANGE & ROUGHAGE FORTIFIER 28 TUB

AN ALL-NATURAL RANGE & ROUGHAGE FORTIFIER FROM KAY DEE.

GUARANTEED ANALYSIS

Crude Protein, not less than	28.00%
Crude Fat, not less than	5.00%
Crude Fiber, not more than	2.00%
Calcium (Ca), not less than	1.00%
Calcium (Ca), not more than	2.00%
Phosphorus (P), not less than	0.80%
Magnesium (Mg), not less than	0.20%
Potassium (K), not less than	6.00%
Copper (Cu), not less than	700 ppm
Selenium (Se), not less tahn	6.9 ppm
Zinc (Zn), not less than	1125 ppm
Manganese (Mn), not less than	1350 ppm
Iodine (I), not less than21 ppm
Cobalt (Co), not less than	3.6 ppm
Vitamin A, not less than	100,000 IU/lb
Vitamin D ₃ , not less than	10,200 IU/lb
Vitamin E, not less than	115 IU/lb

INGREDIENTS

Molasses Products, Processed Grain By-Products, Animal Protein Products, Animal Fat, BHT (A Preservative), Plant Protein Products, Magnesium Oxide, Manganous Oxide, Monocalcium Phosphate, Dicalcium Phosphate, Zinc Oxide, Copper Sulfate, Defluorinated Phosphate, Calcium Carbonate, Ferrous Sulfate, Vegetable Oil, Potassium Sulfate, Potassium Iodide, Cobalt Carbonate, Sodium Selenite, Vitamin E Supplement, Vitamin A Supplement, Zinc Sulfate, Calcium Carbonate, Vitamin D₃ Supplement.

FEEDING DIRECTIONS

Feed one tub per 20 head of cattle. Additional tubs may be needed when there are smaller calves with larger cattle. Place the tubs where cattle tend to congregate. Tubs should be fed continuously along with additional forages and water. If additional mineral or vitamins are desired, offer a loose mineral free choice.

IMPORTANT: Beef Cattle should not receive more than 3 mg selenium, therefore, the feeding rate of this product should not exceed 1 pound per head per day. Consumption of tub will vary depending on quality feed and availability of other feeds. Cattle conditions and weather conditions will also effect consumption.

INTRODUCTION PERIOD: During the introduction period, tubs should be placed approximately 50 to 75 feet near the area that cattle congregate. Move tubs to accommodate consumption, if consumption is less than expected, move tubs nearer the area that cattle congregate. Additional feed may be necessary if consumption becomes excessive.

DO NOT PROVIDE TUBS TO CATTLE OF POOR CONDITION WITHOUT PROVIDING SUPPLEMENTAL FEED. IF CONSUMPTION IS EXCESSIVE FOR MORE THAN TWO WEEKS REEVALUATE THE TOTAL FEEDING PROGRAM.

WARNING: CONTAINS HIGH LEVELS OF COPPER. DO NOT FEED TO SHEEP.

NOTICE: This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feed.

SAMPLE LABEL

SPECIFICATIONS:	USE FOR:	FEATURES & BENEFITS:
<ul style="list-style-type: none"> • 250 lb. non-returnable plastic tub • Cooked tub • Feed free choice 	<ul style="list-style-type: none"> • Cattle on pasture or in confinement 	<ul style="list-style-type: none"> • 28% all-natural protein • High energy from molasses • Ca:P ratio of 2:1 • Contains elevated levels of vitamins and minerals
